

# Access to Fukuma Lab

◆Through the Natural Science and Technology Main Hall

We recommend this route in bad weather, especially during rainy and winter seasons.

\*Note that this route is unavailable after 8:00 p.m. on weekdays and weekends and holidays.

Enter the front entrance of the Natural Science and Technology Main Hall and immediately turn right.

When you see the restroom in front of you, go to the far right and proceed toward the elevator.

Take the elevator to the 2nd floor.  
(Note that the front entrance is on the G2 floor.)

After exiting the elevator, go ahead to the right.

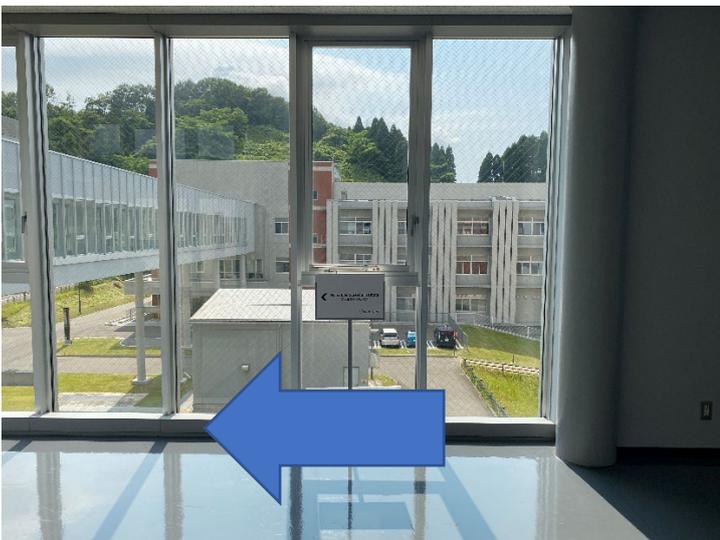

Turn right at the corner.

Continue down the hallway until you reach the end of the hallway and turn left at the end.

When you see an automatic door on your right, head through it and follow the corridor.

The automatic door at the end of the corridor is the entrance to the NanoLSI building. Note that this is the 4th floor of the building.

After you enter the building, take the elevator on the right to the 1st floor.

On the 1st floor, head toward the door on the right.

Please wear slippers in front of the door and push the buzzer to talk to someone in the office.
